

Health and safety training

Casualty Risk Management Services

Having skilled employees who are well trained, competent and knowledgeable in risk management benefits both employees and your business. We believe that providing effective health and safety training is fundamental to the implementation of effective risk control systems.

Our service

Zurich's flexible approach allows you to control the level of support we provide.

Our range of training services include the following:

- **Training materials review** – we can work with you to draft and/or review your training materials to meet your organisation's specific needs.
- **Bespoke training courses** – we offer a selection of one and two day courses (appreciation and skills-based) for directors, managers, supervisors and others – covering diverse topics, such as:
 - risk assessment
 - display screen equipment risk assessment
 - manual handling risk assessment
 - Control of Substances Hazardous to Health (COSHH)2002
 - accident investigation and RIDDOR
 - claims defensibility
 - managing CDM projects
 - safe working at heights.
- **Accredited training courses** – these include:
 - IOSH safety for senior executives
 - IOSH managing safely
 - IOSH working safely
 - IOSH practical techniques for managing health and safety.
