

High performing fleet cover

Corporate fleet insurance

High performing fleet cover

Our Motor Fleet offering brings speed, agility and efficiency to corporate fleet management, providing cover for fleets of 15 vehicles or over.

It has the features and benefits your clients need to protect their fleets, with consistent pricing through our approach. It includes a range of value-added services to help your clients keep their businesses on the road. And it's supported by a fast and responsive claims service delivered by named contacts and handled in the way that suits your clients best.

So for corporate motor insurance that gives your clients the cover they need and more, take a closer look at what Zurich's Motor Fleet insurance has to offer.

Supporting your clients' profitability

Your clients' vehicles are important business assets and their unavailability can cause serious interruptions to day-to-day operations. So as well as covering your clients' legal requirement to insure their vehicles, our Motor Fleet policy includes additional benefits that can help your clients to keep their vehicles running, operate a safer fleet and get damaged vehicles back on the road quickly.

So what's different about Zurich's Motor Fleet insurance?

- No novice or young driver excesses.
- No standard excesses for vehicle type or windscreen cover.
- No limit on audio and accessories.*
- ULR and motor prosecution defence included as standard.
- Access to specialist claims teams.

For more information on the features and benefits, please ask your Zurich Corporate Fleet Underwriter or Account Executive for a copy of the Motor Fleet Key Facts leaflet.

Additional services

Motor Fleet is supported by a range of additional services, either as standard or as an optional extra. Standard services include:

- free 24-hour accident recovery*
- Autoglass 24-hour glass repair* and replacement
- radio replacement*
- courtesy car while repairs are carried out by one of our approved repairers*
- detailed and up-to-date claims information to help with risk management
- fast turnaround on minor body repairs through Autorestore.

And, for an additional payment, your clients can enjoy the reassurance of a pay-as-you-go breakdown and recovery service through the AA subject to registration.

Employee Owned Fleet

Employee Owned Fleet covers groups of private individuals who've opted out of a business' traditional fleet scheme into an Inland Revenue-approved Employee Owned Scheme. The policy covers vehicles that are supplied under the company scheme name to a member of the company scheme, and also courtesy vehicles supplied by the motor trade.

Zurich Driver Solutions

This innovative, fee-based risk management programme not only helps cut the number and cost of claims (both direct and indirect), but also helps your customers meet legal requirements and HSE recommendations by providing evidence that a risk assessment has been undertaken and appropriate action taken.

If you'd like to find out more about these services and the new business opportunities they present, please speak to your Zurich Corporate Fleet Underwriter or Account Executive.

*Subject to policy terms and conditions.

Taking care of claims

We understand that the ability to handle claims quickly and efficiently is probably the most important aspect of any corporate motor policy. So we're committed to delivering a first-class claims handling service that minimises disruption to your clients' businesses.

Giving your clients a single telephone number for reporting claims keeps the whole process as simple as possible.

As soon as your client notifies us of a claim, we'll appoint a dedicated claims handler who will be the client's first point of contact for all enquiries and who will liaise with our specialist teams as necessary.

And thanks to our dedicated motor claims supplier management and commitment to cost control, you can be confident that we're doing everything possible to contain claims inflation.

Benefit from our expertise

To ensure our claims process is as effective and efficient as possible we have specialist teams to handle:

- first response
- own damage
- third-party damage
- third-party injury
- motor engineering
- total loss evaluation
- recoveries
- fraud prevention.

Why choose Zurich?

We're continually improving our products and service to give you an extra competitive edge.

Now, in addition to 'one number' claims reporting, streamlined claims handling and more efficient quoting / document processing, you can pick up the phone and talk directly to a dedicated underwriter for expert technical advice when you need it most. Which marks significant progress for an already highly-responsive, performer.
