

Healix Travel Oracle App

An essential tool for your global workforce, helping ensure their safety and security while abroad.

Developed in conjunction with leading health and security experts, the Healix Travel Oracle App provides your expatriate employees and business travellers with instant access to critical insight and support, both before and during their overseas assignments.

A direct link to a dedicated team of medical, security and travel experts means that advice and assistance is just a tap of a button away, while an award-winning e-learning course ensures your employees are aware of the steps they need to take to protect their own safety while abroad.

Features

Emergency Assistance

The Healix Travel Oracle App provides your employees with instant access to a dedicated 24/7 Emergency Assistance Helpdesk. By co-ordinating all services needed for travel, health and security assistance through one central point, Healix International is able to ensure that your employees get the most appropriate support and protection.

e-Learning & Pre-Trip Advice

An award winning series of security training videos help ensure that your employees are aware of safety measures they should take while abroad. Subjects covered include:

- Preparation & arrival
- Travel health risks
- Getting around your destination safely
- Street crime and robbery prevention
- Carjacking and kidnapping
- Civil unrest awareness

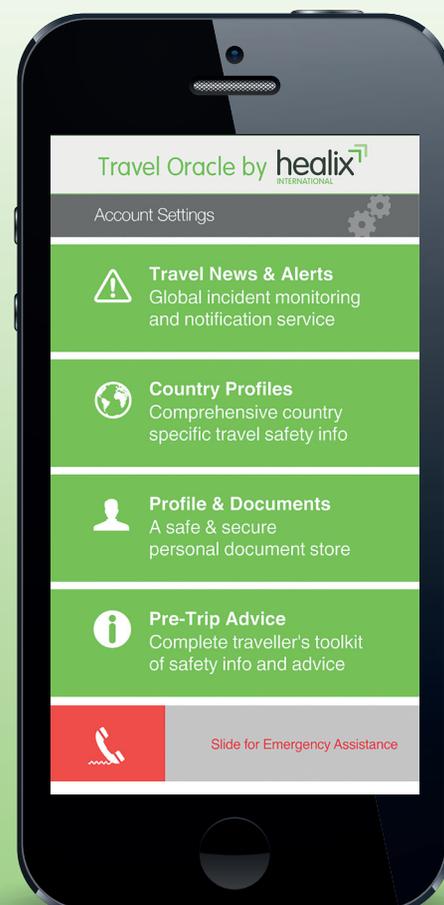

Each training module concludes with a multiple choice test and certification is issued once all seven modules have been satisfactorily completed.

The e-learning course is supported by a comprehensive range of bite-sized articles providing your employees with a wealth of information and advice on traveller safety.

News & Alerts

Specialist security analysts provide a global incident monitoring service with real time country alerts, news and breaking incidents sent directly to your employees' mobile phone or tablet. A vital resource for pre-trip preparations as well as for monitoring developments while on assignment.

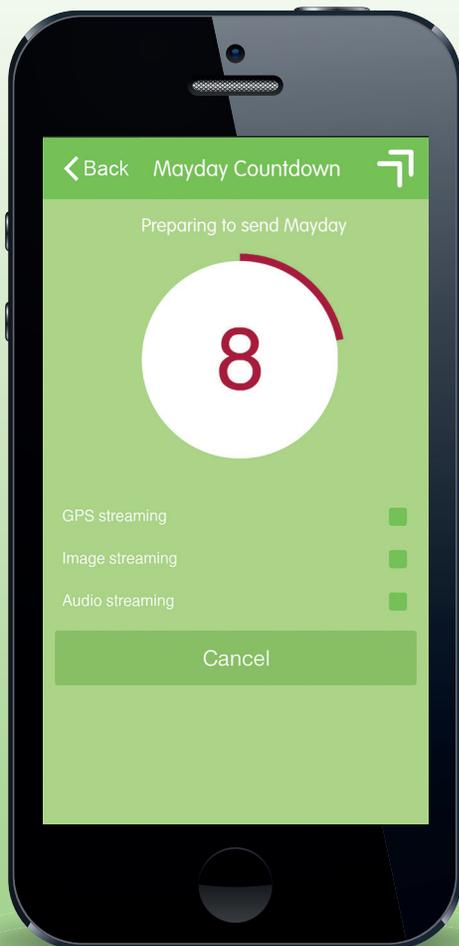

- Employees can specify their own 'Watch List' of countries, incidents and news items to monitor
- News items and alerts can be 'tagged' and saved for future reference
- Incidents can be viewed on a global risk map
- Employees can view their current location in relation to in-country incidents on the risk map, including satellite view

» Country Profiles

Comprehensive country briefings on over 200 countries provide your global workforce with essential information and advice in advance of their assignment, arming them with useful local knowledge and informing them of country risks and cultural differences. Country specific briefings are included on:

- ↗ Travel risk summary
- ↗ Crime
- ↗ Terrorism security
- ↗ Natural disasters
- ↗ Health risks
- ↗ Local travel
- ↗ Culture
- ↗ Business tips
- ↗ Vaccinations
- ↗ Visa and passport information

'Mayday' Function

An inbuilt 'Mayday' function ensures that assistance is just a tap of a button away if an emergency should occur. If the 'Mayday' is activated, an email alert is automatically sent to designated contacts along with a series of situational photographs, a sound recording and GPS location.

Personal Profile & Documents

The Travel Oracle App includes a secure 50 MB storage facility for digitally scanned documents and photographs so if your employees' passports or other travel documents are lost or stolen, they can quickly produce copies.

Personal and medical details can also be recorded in a secure Profile Section, allowing convenient access at the tap of a button.

Healix International is a global leader in international medical, security and travel assistance services. Working on behalf of multinational corporations, governments, NGOs and insurers, Healix is entrusted to look after the welfare of millions of expatriates, travellers and local nationals in every country of the world, 24 hours a day.
