

# Worldwide security and health Information service

We'd like to introduce you to Crisis24, a free of charge online and mobile service available to you and your employees.

This free service has never been more relevant nor more important for travellers and plays a vital role in providing up to the minute health and security information – keeping you safe at home and abroad.

This service is available online and via the Crisis24 Horizon app, where Crisis24 operatives around the globe provide up-to-the-minute worldwide security and health information, covering everything from emergency situations and adverse weather, to terrorist hot-spots and travel-related alerts relevant to your location and travel plans.

## Key features include:

- ✓ Timely and detailed intelligence on 200 destinations worldwide, now including over 800 provinces and more than 400 cities
- ✓ Information on security hotspots
- ✓ Cultural considerations
- ✓ Comprehensive advice on mitigating threats to your person, family and property.

## Crisis24 Horizon app

This comprehensive mobile app provides a range of features to enhance any travel risk management plan.

Using geolocation to ensure information is relevant to the user's location, Crisis24 Horizon provides a range of features to ensure travellers are always aware of risks in their destination and have key information at hand to reduce and mitigate any potential threats.

## Key features:

- ✓ Timely and detailed location intelligence and risk ratings for 200+ countries, 800+ provinces and 400+ cities
- ✓ Intelligence includes travel advisories, political and security concerns, travel logistics, cultural factors and health information
- ✓ Safety, security and travel-related alerts specific to your location
- ✓ Interactive map with health and security information for each location
- ✓ Local emergency numbers and dialling code information
- ✓ Travel health information such as vaccination recommendations
- ✓ Information on medical care available in each location
- ✓ Weather-related information

# Download the Crisis24 app

To access the app, you can log in using the same username and password you would have used on the website (<https://crisis24horizon.com/zcr>), or you can simply enter your 8 character insurance policy number as the verification code and proceed with the setup.
