

Group Life Digital Application Journey

Employee Spouse/Partner cover

1. Employer sets up Flex Platform, including Spouse/Partner cover, as part of the employee benefits offering.

2. Employee elects Spouse/Partner cover via the Flex platform.

3. Employee clicks on the link to the Spouse/Partner application form, taking them to the digital application form that we've specifically created for the scheme arrangement.

4. Employee provides personal details and basic Spouse/Partner details before digitally signing and submitting their part of the application.

5. The employee's spouse/partner receives an email from zurichcorporaterisk@uk.zurich.com, asking them to complete their part of the application, then digitally signs and submit the form.

6. The completed form is securely sent to Zurich Corporate Risk for assessment and storage.

7. Once the application has been assessed, an email is sent to the employer, the flex platform provider, the employee and the spouse/partner to confirm if the application has been successful or not and advise next steps.

Speak to your usual Zurich contact to find out more.
