Engineering inspections that deliver more for your business

When you choose Zurich Engineering, you get more than a statutory inspection. We provide specialist support, flexible delivery and practical tools to help you improve safety, maintain compliance and keep your operations running at their best.

Why customers choose us...

Expertise you can trust

- Nationwide network of over 600 professional and highly trained Engineer Surveyors who are supported by experienced Technical Specialists who understand your business and region
- Strong technical credentials and membership of professional bodies
- Ability to combine inspections with wider engineering insurance solutions

Recognised experts protecting your critical plant and equipment.

Service that fits your business

- Engineer Surveyors manage their own diaries for convenient, flexible appointments
- Consistent Engineer Surveyors with no central planning
- Market-leading performance in completing inspections on time
- Out-of-hours inspections available, including evenings, weekends and bank holidays

Reliable inspections with minimal disruption to your operations.

Clear deliverables, with no hidden extras

- Pressure Systems Written Schemes of Examination included
- Clear, up-to-date LEV schematic drawings to support your systems
- Crimson online portal, giving easy access to reports and data for MI and audits

All your key compliance documents in one easy-to-access place.

More than a statutory inspection

- Specialist consultancy services, including non-destructive testing, magnetic rope testing, pressure equipment consultancy and remote visual inspections
- Practical technical support, including risk assessments and project support
- EV charger inspections to help keep your infrastructure safe and compliant

A long-term engineering risk partner, not just an inspection provider.
